

If you are in Paris, as an asylum seeker, refugee or undocumented person, this flyer is made for you.

Informations are from a free guide available and updated each month in French, English, Arabic (litteral), Pashto and Dari. It contains useful addresses, advice and legal procedures.

Our texts are written, reviewed and checked by social, asylum and foreigner's right experts.

Follow this link to download it :

## Right thing during a heat wave:

Drink water, even if you are not thirsty. Aim to drink 3 to 4 liters of water a day. Fill a water bottle as soon as possible.

During the day try to stay safe in cool or air-conditioned places: churches, railway stations, shopping centers, libraries, etc.

Get closer to the fountains and freshness zone. Wet your body, your face, your forearms.

Avoid drinking alcohol.

Rest and avoid effort.

Try to eat enough fresh food

In the event of heat stroke, if you experience the following symptoms (weakness, dizziness, drowsiness, nausea, fever, sweating): call 15 !

## Cool island :

In case of a heat alarm, the city council of Paris leaves the parks open all night and extends the opening hours of the public shower as well as some ESI.

Fresh islands in Paris are also identified as places of rest, accessible to everyone. Scan the QR code to find them:
