ARRIVING IN PARIS

YOUR ADMINISTRATIVE SITUATION

You are a foreign national and wish to stay in France: in order to stay on French territory without risking expulsion, you need a residency permit.

There are various options depending on your personal situation (**asylum claim, residency permit request**).

In the box below you will find information on how to start an asylum claim. This is not the only option. These procedures are long and complicated.

For legal help, you can seek free legal aid (see page 8)

ASYLUM CLAIM

Call the OFII to book an appointment: 01 42 500 900

🕒 **Monday to Friday 9am-4:30pm**

Wait for the language option to choose yours. Lots of people are calling at once: waiting times can be long and cut off automatically after 45 minutes. It is advised to call between 2 and 4:30pm to avoid long waiting times. You may have to try several times.

⚠️ **Careful, this phone number is not free. It will cost you the price of a local call. If you do not have phone credit, go to a day center (see page 13) and the people working there will let you use a phone.**

⚠️ **If you are unable to book an appointment, take screenshots of the calls**

made to the OFII on your phone. This will help you prove you have tried to call and were not able to reach them.

HOUSING

Emergency accomodation for all

If you are don't have any accomodation, you can call this free emergency number: 115

You do not need a French residency permit to qualify for emergency accomodation.

⚠️ **Careful, there aren't many spots open so accomodation is not guaranteed and is often only available for a short stay.**

We advise you to talk to a social worker in a day center (see page 13).

Accomodation for asylum seekers

During your first appointment at the Prefecture, the OFII should offer you accomodation. Since the waiting time can be long, other housing solutions exist for you before you even start your asylum claim.

Careful, the French Office for Immigration and Integration (OFII) can offer you a referral for accomodation in another region than the one you filed your asylum claim in. If you refuse to go where they refer you, you will loose your housing and financial benefits (ADA). Your asylum claim may also be canceled.

Access to accomodation will vary depending on your family structure and on your administrative situation. If you haven't submitted an asylum claim yet, you are less likely to be provided with accomodation. Call the OFII number to request housing during your asylum procedure.

The Aboukir Day Center specializes in helping families, couples and single women who have just arrived in Paris.

YOUR DOCUMENTS

⚠️ **It is very important to keep copies (photos) of all your documents and letters in your name you may be given during your stay in France.**

Keep these copies in different places (at a friend's house, with an organization) and online (in your emails...).

Keep track of all your documents as soon as you arrive in France and organize them by theme (health, work, school...)

• They will be useful **during your asylum**

procedure or in case of arrest to prove your lawful presence on French territory, and will help organizations better understand your situation.

• **Proofs of your presence in France will be requested if you request a residence permit.**

Examples : income declarations (taxes), medical prescriptions, social security notifications, phone and electricity bills, Navigo Pass, domiciliation certificate, paystubs, French class registration and diploma, other letters...
